

# *Welcome to Teen Scene 2016!!*

**Welcome to a new year at the Teen Scene! We appreciate your continued interest in the camp this year, and we welcome any new families! In order for the camp to run at its highest potential we think it is important for there to be communication between the campers and counselors, but also between parents and counselors. There are a few important issues that we want to share for this year:**

1. Middle-school-aged children have different privileges and responsibilities than younger aged children, such as walking home alone. Therefore, in order to maintain the best interest of your child and your family, it will be necessary for us to have a permission form stating that your child can walk home. No child will be allowed to walk home without this form. This is very important for dismissal to run smoothly.
2. If your child is going home with another family, we must have a written note stating that they are allowed to do so. This is also very important to the dismissal process. We want to be certain that your child is in proper hands.
3. Flyers will be distributed for any trip or activity that is off of the park grounds. Details of those activities, including prices, locations, and times, will be on the flyers.
4. In case of inclement weather, the teen scene is not canceled. The elementary school camps are canceled, but teen scene remains open. However, we may meet, or carpool to, the Teen Center. This is a room located directly below the Recreation Office, including activities and games for the kids. Notifications for inclement weather will be sent via the text app.
5. Please feel free to discuss any issues that arise at camp with us in person. It is our job to ensure that each camper has an equal opportunity to enjoy his or herself. Please do not hesitate to discuss any issues that we may be unaware with, or encourage your child to discuss them with us.

**The staff is very excited for the next Teen Scene year!!! Please feel free to ask a counselor about any of the information on this flyer.**
